

ELKA PRO Bib & Brace w/ extra strong knee reinforcement

ART. 079908

Durable and functional bib overall designed for professional work environments where comfort, mobility and durability are essential.

This ELKA PRO overall is made from robust polyamide with a PU coating and a water column of 20,000 mm, ensuring reliable protection against water and moisture. The combination of flexibility and high abrasion resistance makes it suitable for prolonged use in demanding conditions. The overall is developed with a strong focus on maximum durability in the knee area. The extra reinforced knee pad pockets are made from heavy-duty material, significantly extending the product's lifespan when working in kneeling positions. The crotch area is also reinforced to withstand daily wear and strain.

Adjustable braces with Fix-lock ensure a secure and individual fit, while elasticated leg ends improve comfort and help prevent water and dirt from entering. The overall is suitable for applications such as service and cleaning, where high demands are placed on functionality and durability.

- Pockets for knee pads, crafted from extra-durable fabric, significantly increasing abrasion resistance
- Adjustable braces with Fix-lock
- Elasticated leg ends
- Reinforced crotch
- Rain protection (EN 343, 4-1-X)
- Chemical protection (EN 14605, PB[4])
- Protection against biological hazards (EN 14126, PB[4]-B)

003 - Cobalt

Size	XS - 5XL
Main Fabric	ELKA PRO, 240g/m ² , 100% Polyamide, PU Top Coating, 20.000mm H ₂ O
Contrast Fabric	ELKA Abrasion, 365g/m ² , 100% Polyamide, PU Top Coating

Maintenance

Wash with similar colors
Do not use fabric softener
Do not use waterproofing additives
